SUMMARY

Full-stack software engineer with 3 years of experience building enterprise-grade applications using .NET, C#, SQL, Javascript, and Angular. Skilled in designing scalable, test-driven web solutions, optimizing system performance, and delivering features in Agile environments. Background in healthcare operations with strengths in compliance, data accuracy, and process optimization.

SKILLS

- **Languages and Frameworks:** C#, .NET, JavaScript, TypeScript, Angular, AngularJS
- **Backend:** REST APIs, SQL Server, Stored Procedures, Entity Framework
- **Testing:** Cypress, Unit Testing, E2E Testing
- **Tools and Platforms:** Azure, Azure Blob Storage, Git, Agile/ Scrum

EXPERIENCE

Software Engineer

Oct 2022- Sep 2025

Alleva, Laguna Niguel, CA

- Revamped web app reporting section using UX-provided designs in Angular and implemented supporting REST API endpoints and C#/.NET backend methods.
- Developed and maintained .NET APIs and SQL Server stored procedures to support web app functionality.
- Reduced daily data transfer from 1.5–2 TB to 10 GB by enabling direct Azure Blob file access instead of routing files through WebAPI/REST API, drastically cutting costs and improving system performance.
- Created/ maintained Cypress end-to-end and unit tests, improving test coverage and reducing regression bugs.
- Implemented MVC patterns for new feature development.
- Removed XSS vulnerabilities by implementing input sanitization on user-submitted data, improving application security.
- Contributed to migration from AngularJS to modern Angular, reducing technical debt and improving maintainability.

Clinical Research Pharmacy Technician

Apr 2021- Feb 2022

Augusta University Medical Center, Augusta, GA

- Supported clinical research pharmacy protocols in compliance with GCP guidelines, state/federal regulations, and health-system policies.
- Created several processes for organization of clinical research inventory and archival of studies.
- Assisted study coordinators with inquiries, audits, and documentation gathering/correction.

Pharmacy Technician

Mar 2013- Jun 2017

US Navy, Various locations

- Managed pharmaceutical operations, pharmaceutical equipment, inventory control, and medication/ supply procurement across multiple naval medical facilities.
- Oversaw a \$2.3M annual pharmaceutical budget and helped improve inventory tracking efficiency through barcode system implementation.
- Processed 30,000+ prescriptions and contributed to high patient satisfaction and operational accuracy.

EDUCATION

Bachelor of Science in Software Engineering, Western Governor's University

2027
